

The Eighth International Conference on Mining Intelligence and Knowledge Exploration (MIKE 2021)

01 – 03 November 2021

Venue:
Hammamet, Tunisia

MIKE 2021 will be a **Virtual Event** due to prevailing COVID-19

MIKE 2021 is an interdisciplinary conference that brings together researchers and practitioners developing learning algorithms in the domains of artificial intelligence, machine learning, data mining, conversational (natural language based) systems, evolutionary computation, internet-of-things, data analytics, soft computing, computer vision, speech processing, security systems, vehicular networks, and so on

Call For Papers

The MIKE 2021 Program Committee invites submissions of papers on all aspects of Learning Algorithms and Knowledge discovery techniques for the main technical program. Each submission must be identified as theoretical/methodological research, applied research, or deployed application paper and will be reviewed using criteria appropriate to its category: Theoretical/Methodological research paper, Applied research paper, and Deployed application paper.

The MIKE 2021 Program Committee invites submissions in the following areas, but not limited to:

- ❖ Evolutionary Computation
- ❖ Artificial Intelligence
- ❖ Machine Learning and Knowledge Based Systems
- ❖ Knowledge Exploration in IoT
- ❖ Data Mining and Information Retrieval
- ❖ Social Media and Big Data Analytics
- ❖ Medical Image Analysis
- ❖ Pattern Recognition and Computer Vision
- ❖ Speech / Signal Processing
- ❖ Text Mining and Natural Language Processing
- ❖ Intelligent Security Systems
- ❖ Smart and Intelligent Systems
- ❖ Distributed Algorithms

All accepted papers would appear in the conference proceedings, Lecture Notes in Artificial Intelligence (LNAI), a subseries of Lecture Notes in Computer Science (LNCS) published by Springer.

The authors of the selected papers will be invited to submit the extended versions for journal special issues. Details will be sent along with the final notification of the accepted papers.

General Chairs

Richard Chbeir
Univ Pau & Pays Adour, France

Rajendra Prasath
IIIT Sri City, Chittoor

Program Chairs

Yannis Manolopoulos
Open University of Cyprus, Cyprus

Minho Jo
Korea University, Korea

Kazi Shah Nawaz Ripon
Østfold University College, Norway

Workshops / Special Issues Chair

Mirjana Ivanovic
University of Novi Sad, Serbia

Publicity Chair

Theodoros Tzouramanis
University of Thessaly, Greece

Webmaster

Elio Mansour
Univ Pau / Pays Adour, France

Important Dates

Full Paper Submission
July 31, 2021, 11:59 PM PST

Author Notification
August 31, 2021

Camera Ready & Registration
September 15, 2021

Online Proceedings Ready
November 01, 2021

Publishing Partner

Lecture Notes in Artificial Intelligence

Lecture Notes in Computer Science

Event Supporters
